# Escalation Management

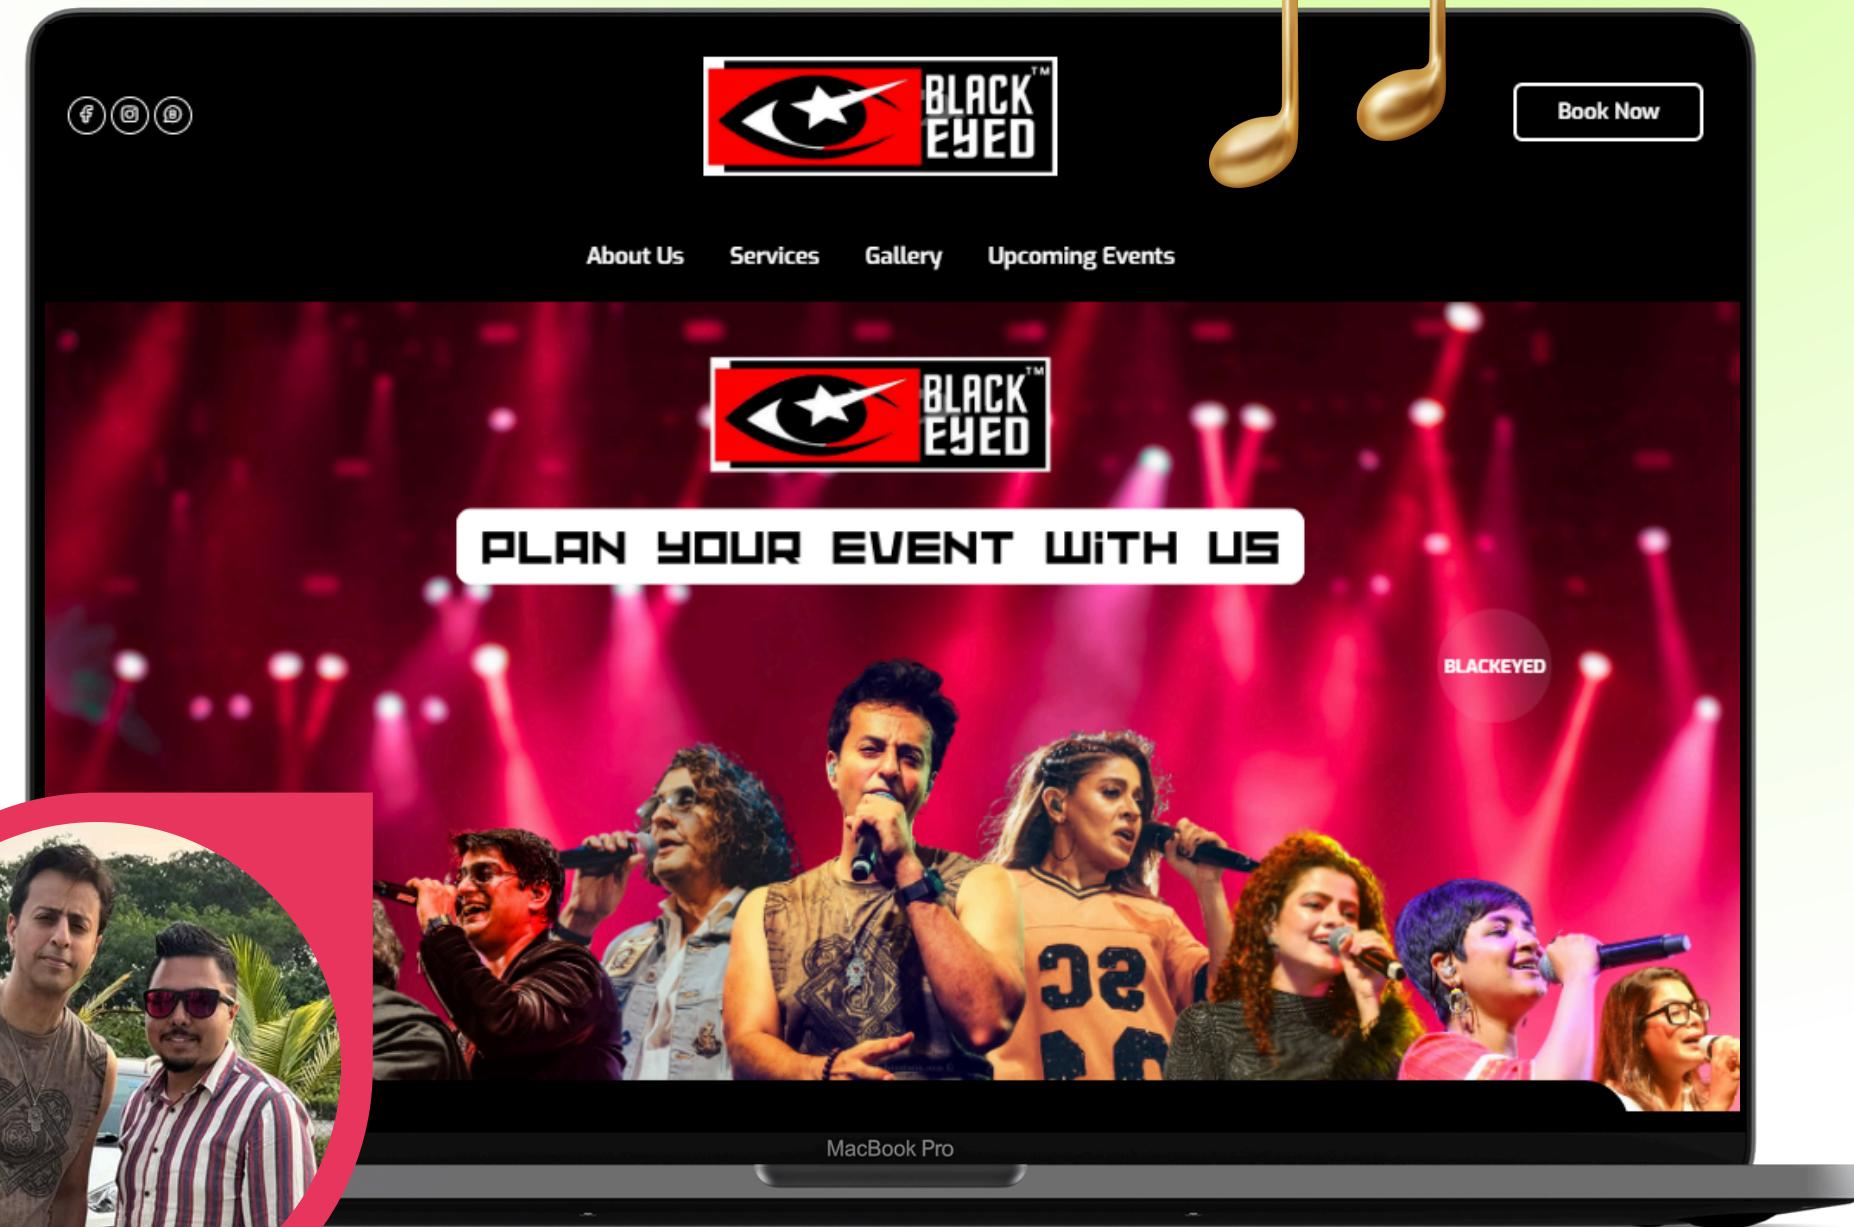

# Our Client Portfolio

GrindX

# Blackeyed Events

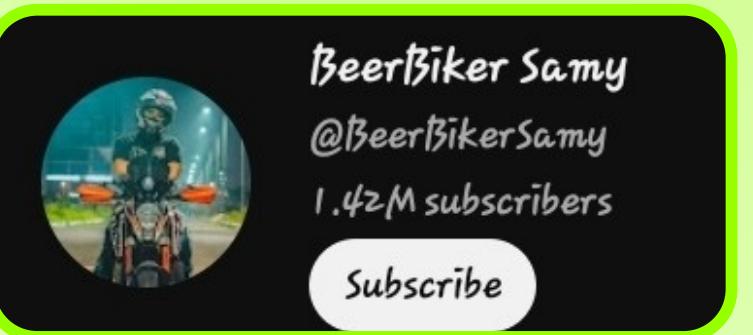

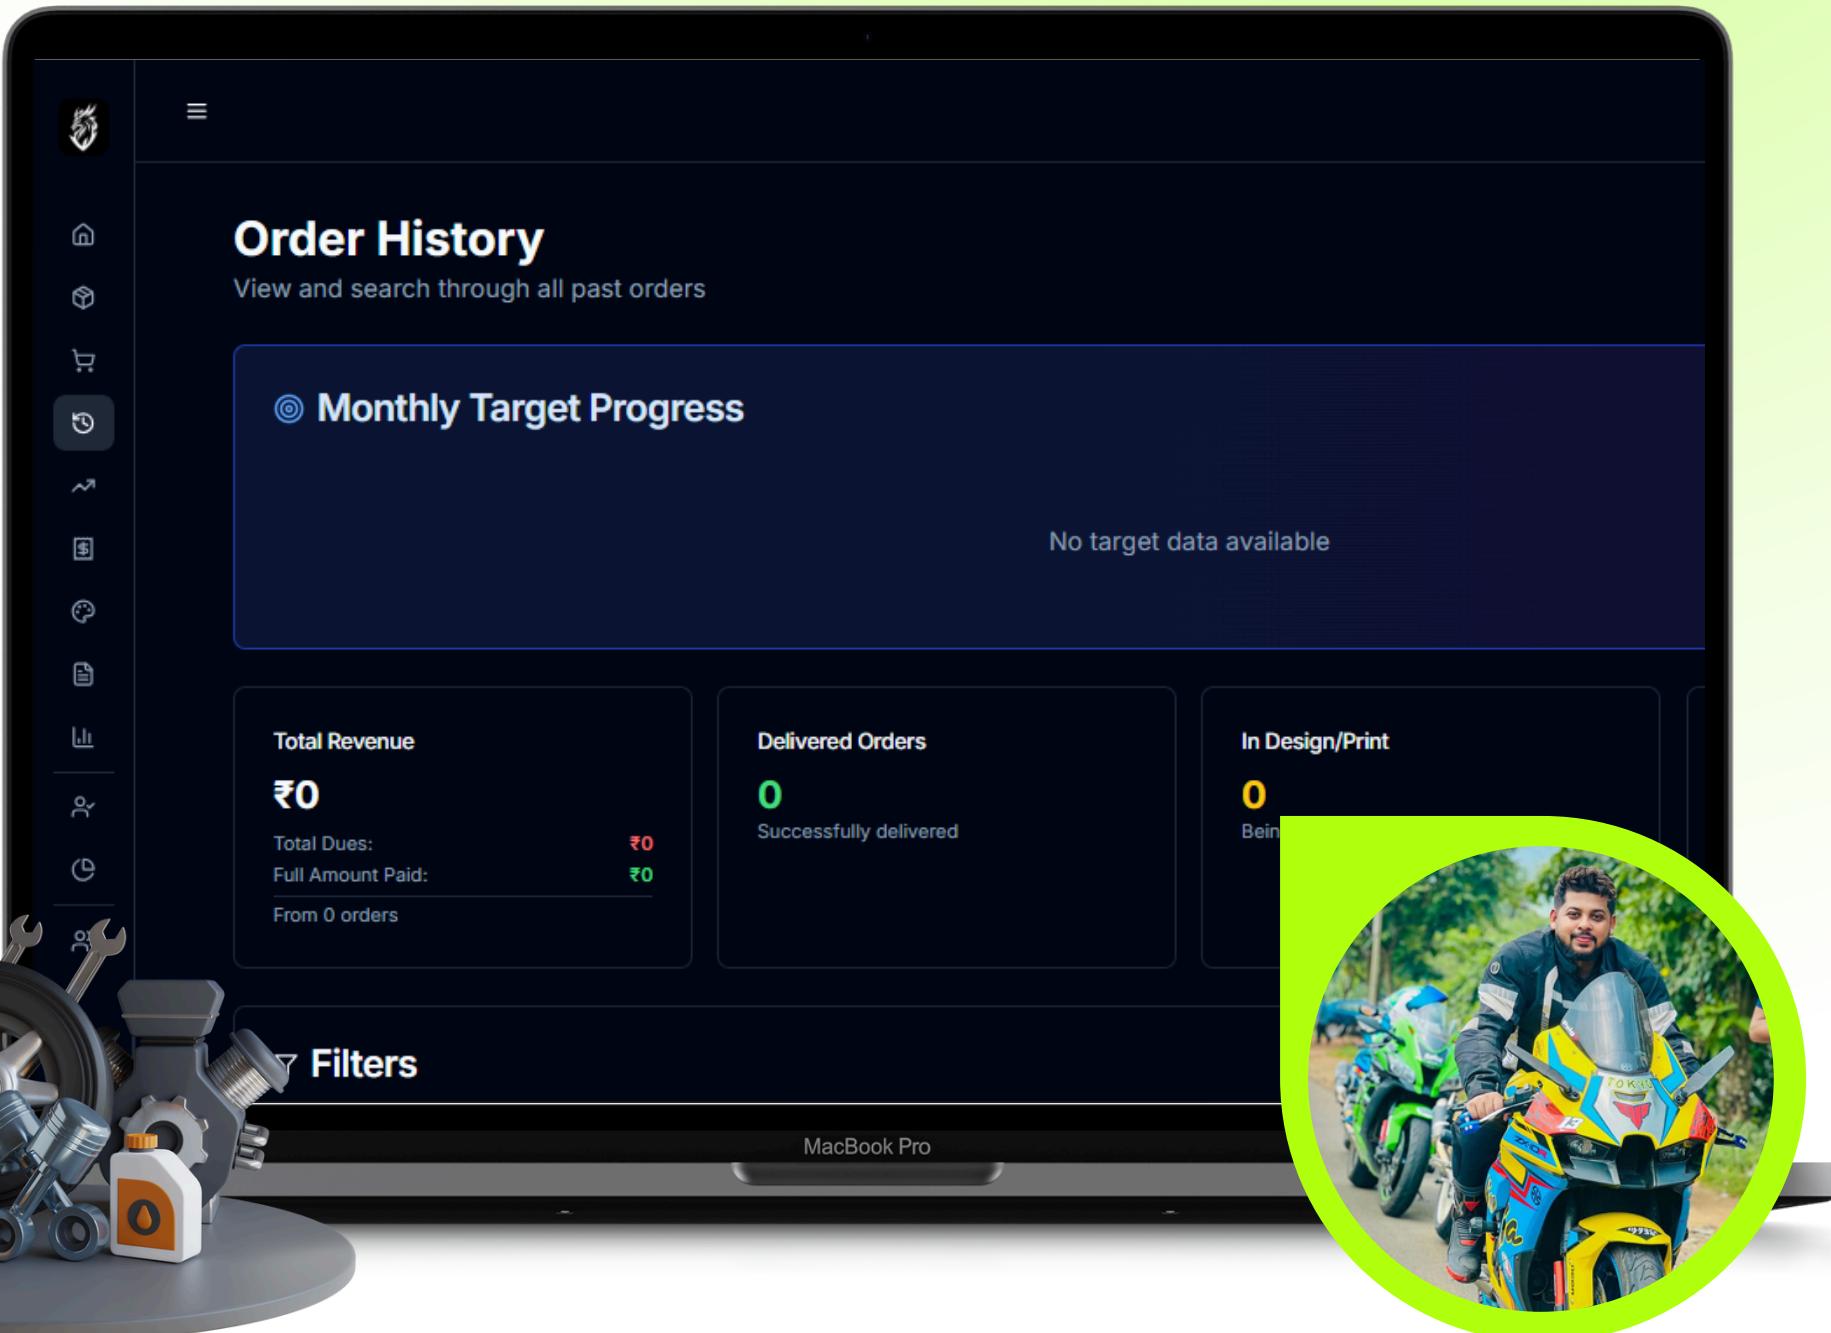

Blackeyed Events is a distinguished event management company based in West Bengal, India, specializing in orchestrating a wide array of events, including weddings, corporate functions, and cultural gatherings. Established in 2019, they have garnered a reputation for delivering meticulously planned and executed events that resonate with their clients' visions and expectations.

# Wrap Dynamics

Wrap Dynamics is a custom ERP solution that unifies billing, sales, and inventory management with a smart design workflow. It features real-time low-stock alerts, automated inventory updates, and GST/non-GST billing formats.

A built-in sales pipeline helps track and close deals efficiently, while orders requiring wrapping are seamlessly routed to the design team and back, ensuring smooth coordination.

# DSAT GURU [ USA CLIENT ]

DSAT Guru is an advanced e-learning platform built for our US client, powered by an adaptive learning algorithm. The system automatically fetches questions from a dynamic question bank and delivers them to students based on their individual learning capacity and performance.

By tailoring content difficulty in real time, DSAT Guru ensures a more personalized and effective learning experience.

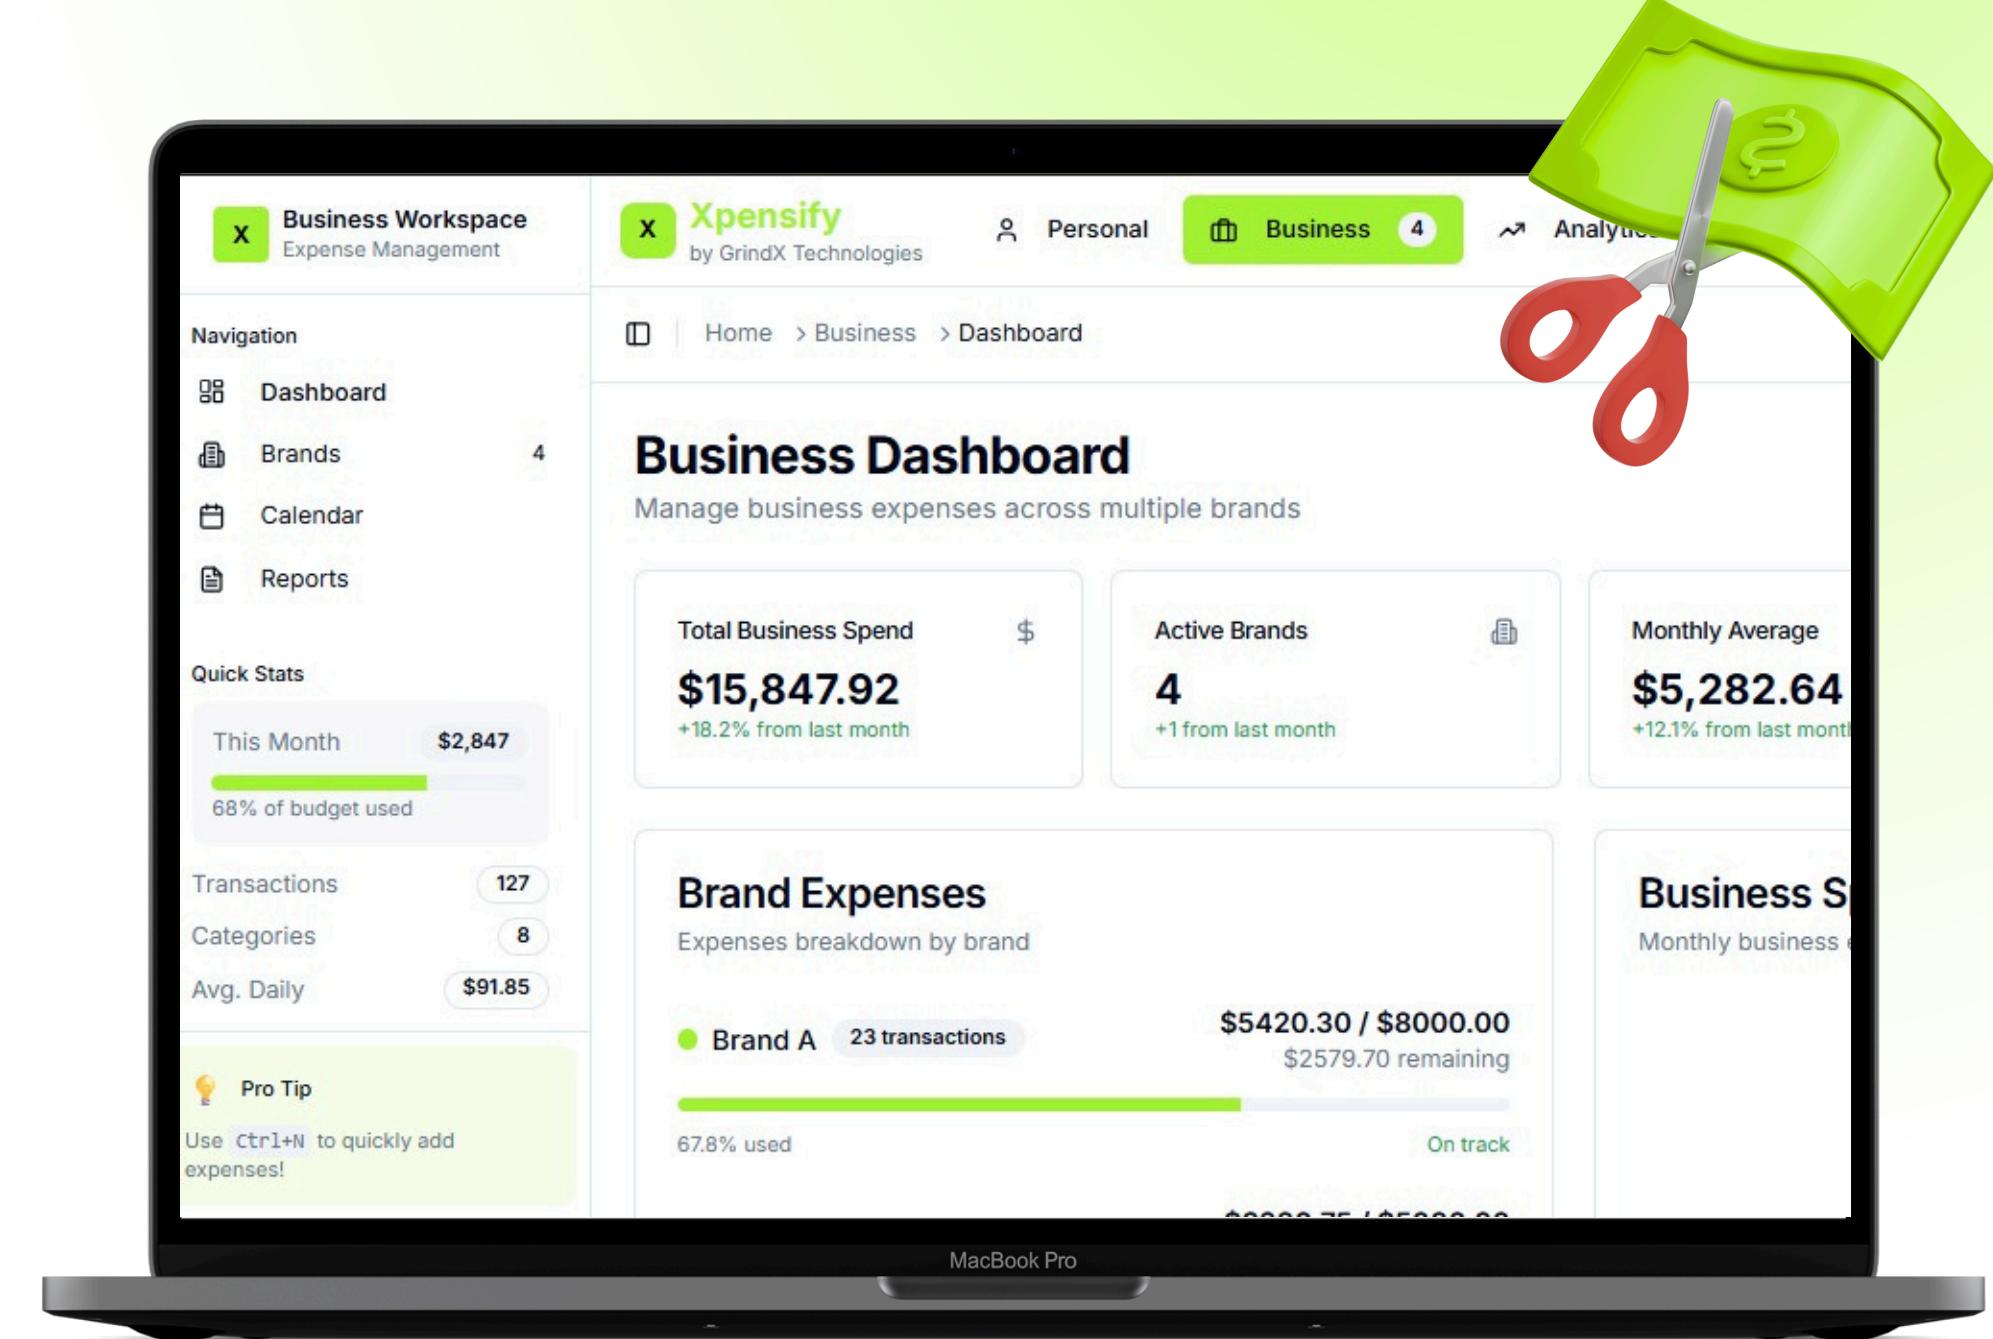

# Xpensify

## [Expense Management SaaS ]

Xpensify is our custom-built expense management platform designed for both individuals and business owners to easily track and manage their funds. It offers a personal dashboard for day-to-day expense tracking and a business dashboard where users can manage multiple brands.

With features like automated monthly recurring expenses and ability to upload expense records via Excel.

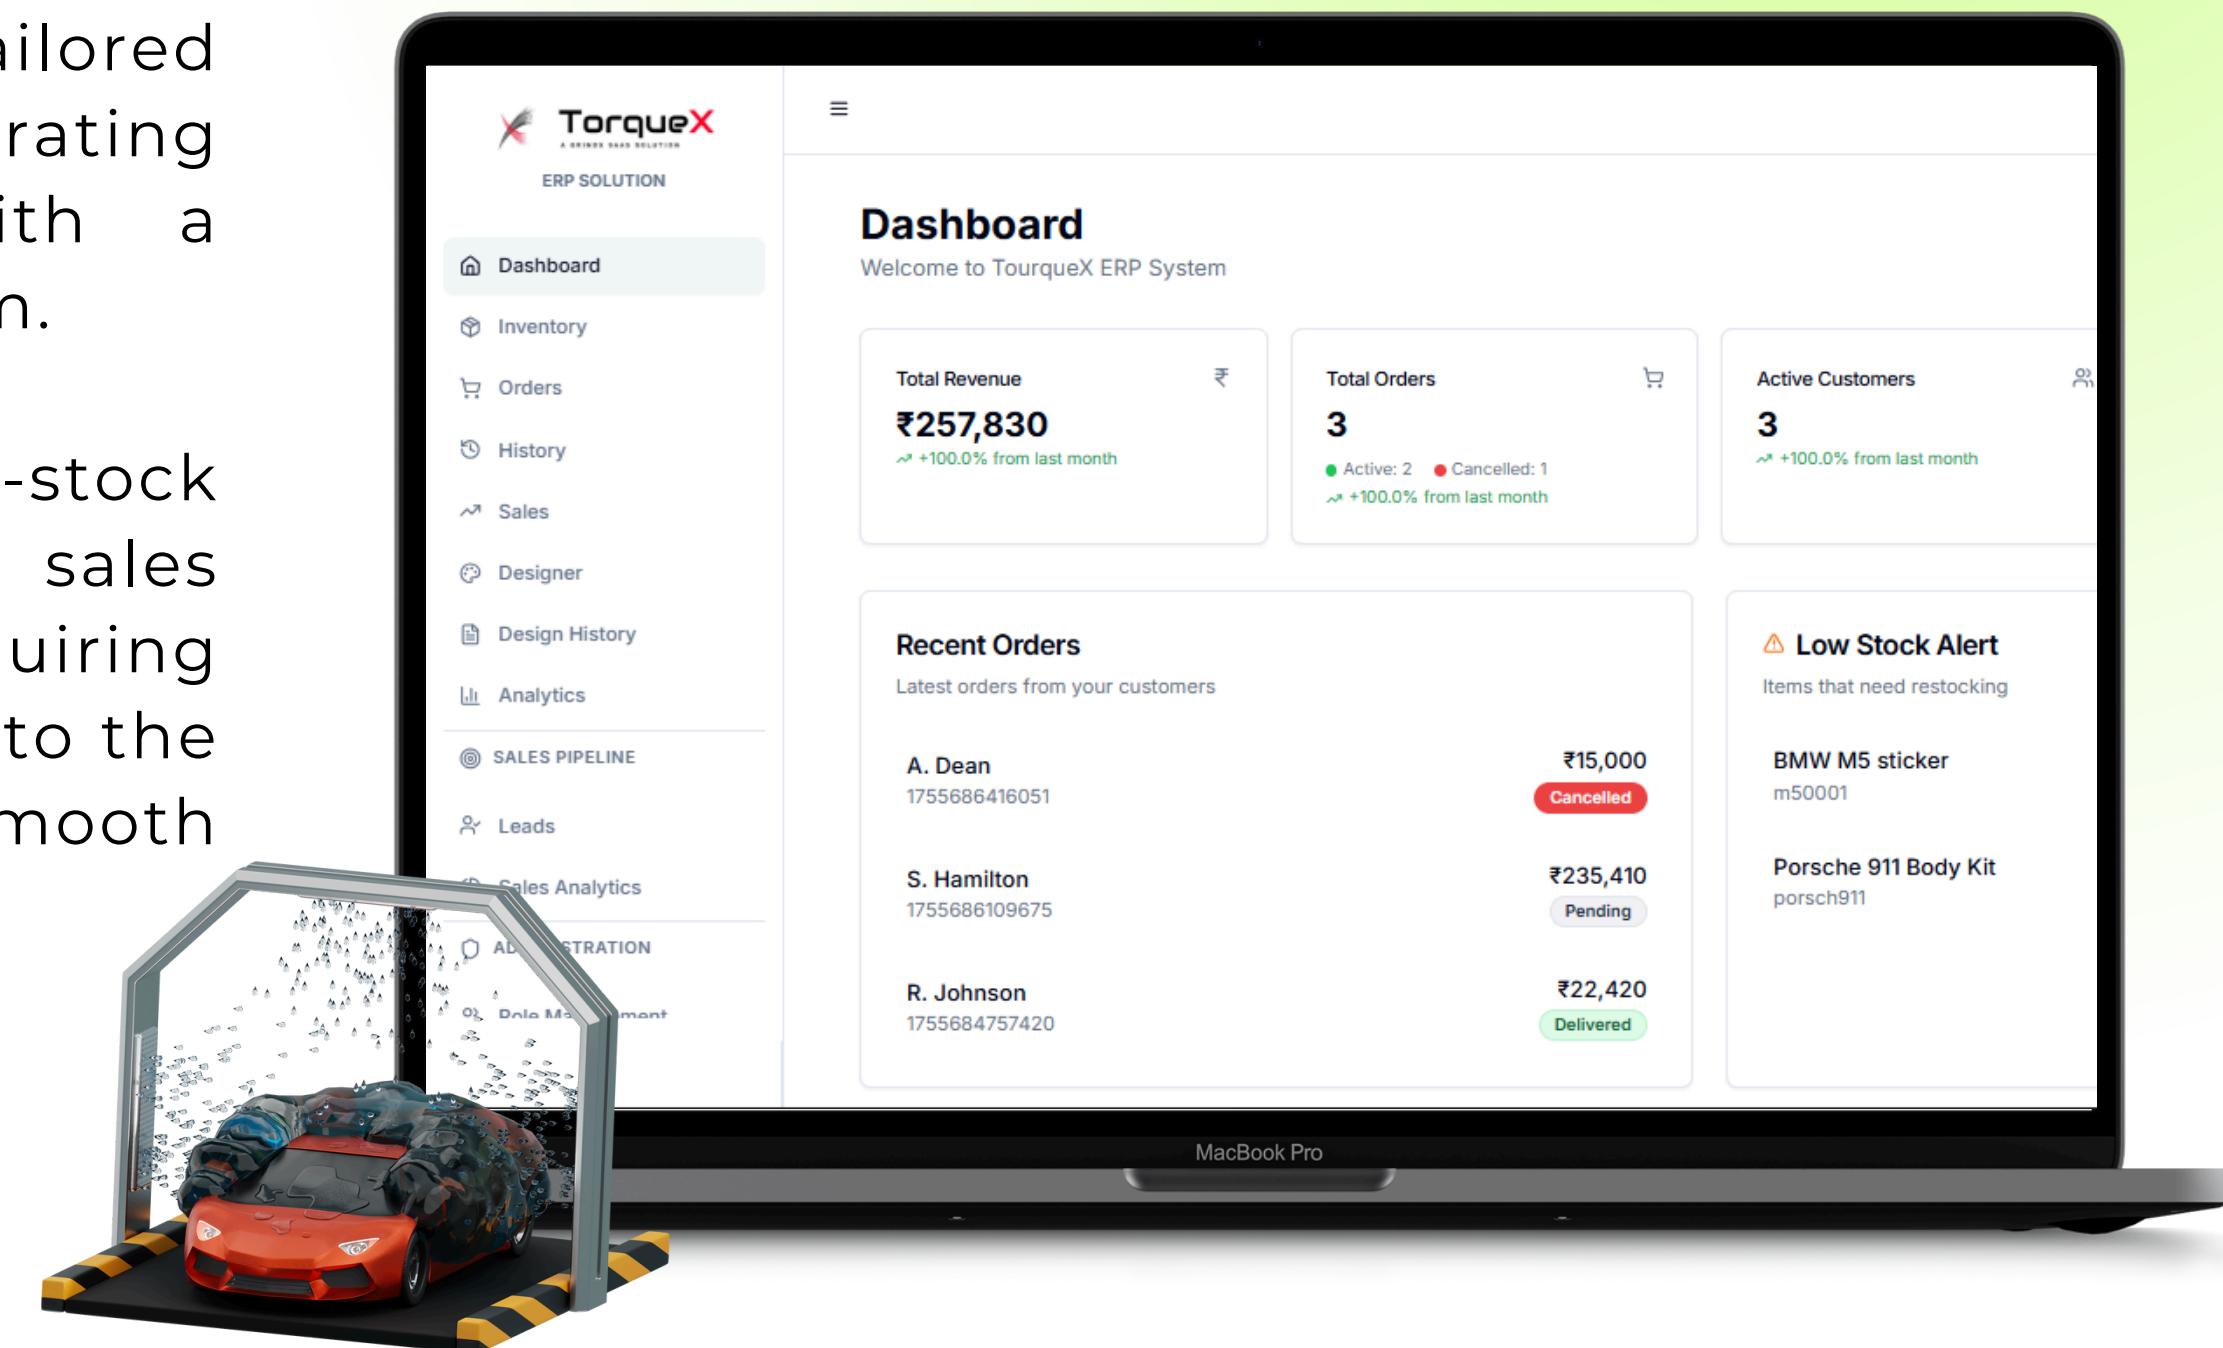

# TorqueX

## [ Automobile Industry Management SAAS ]

TorqueX is a custom ERP solution tailored for the automobile sector, integrating billing, sales, and inventory with a specialized wrap management system.

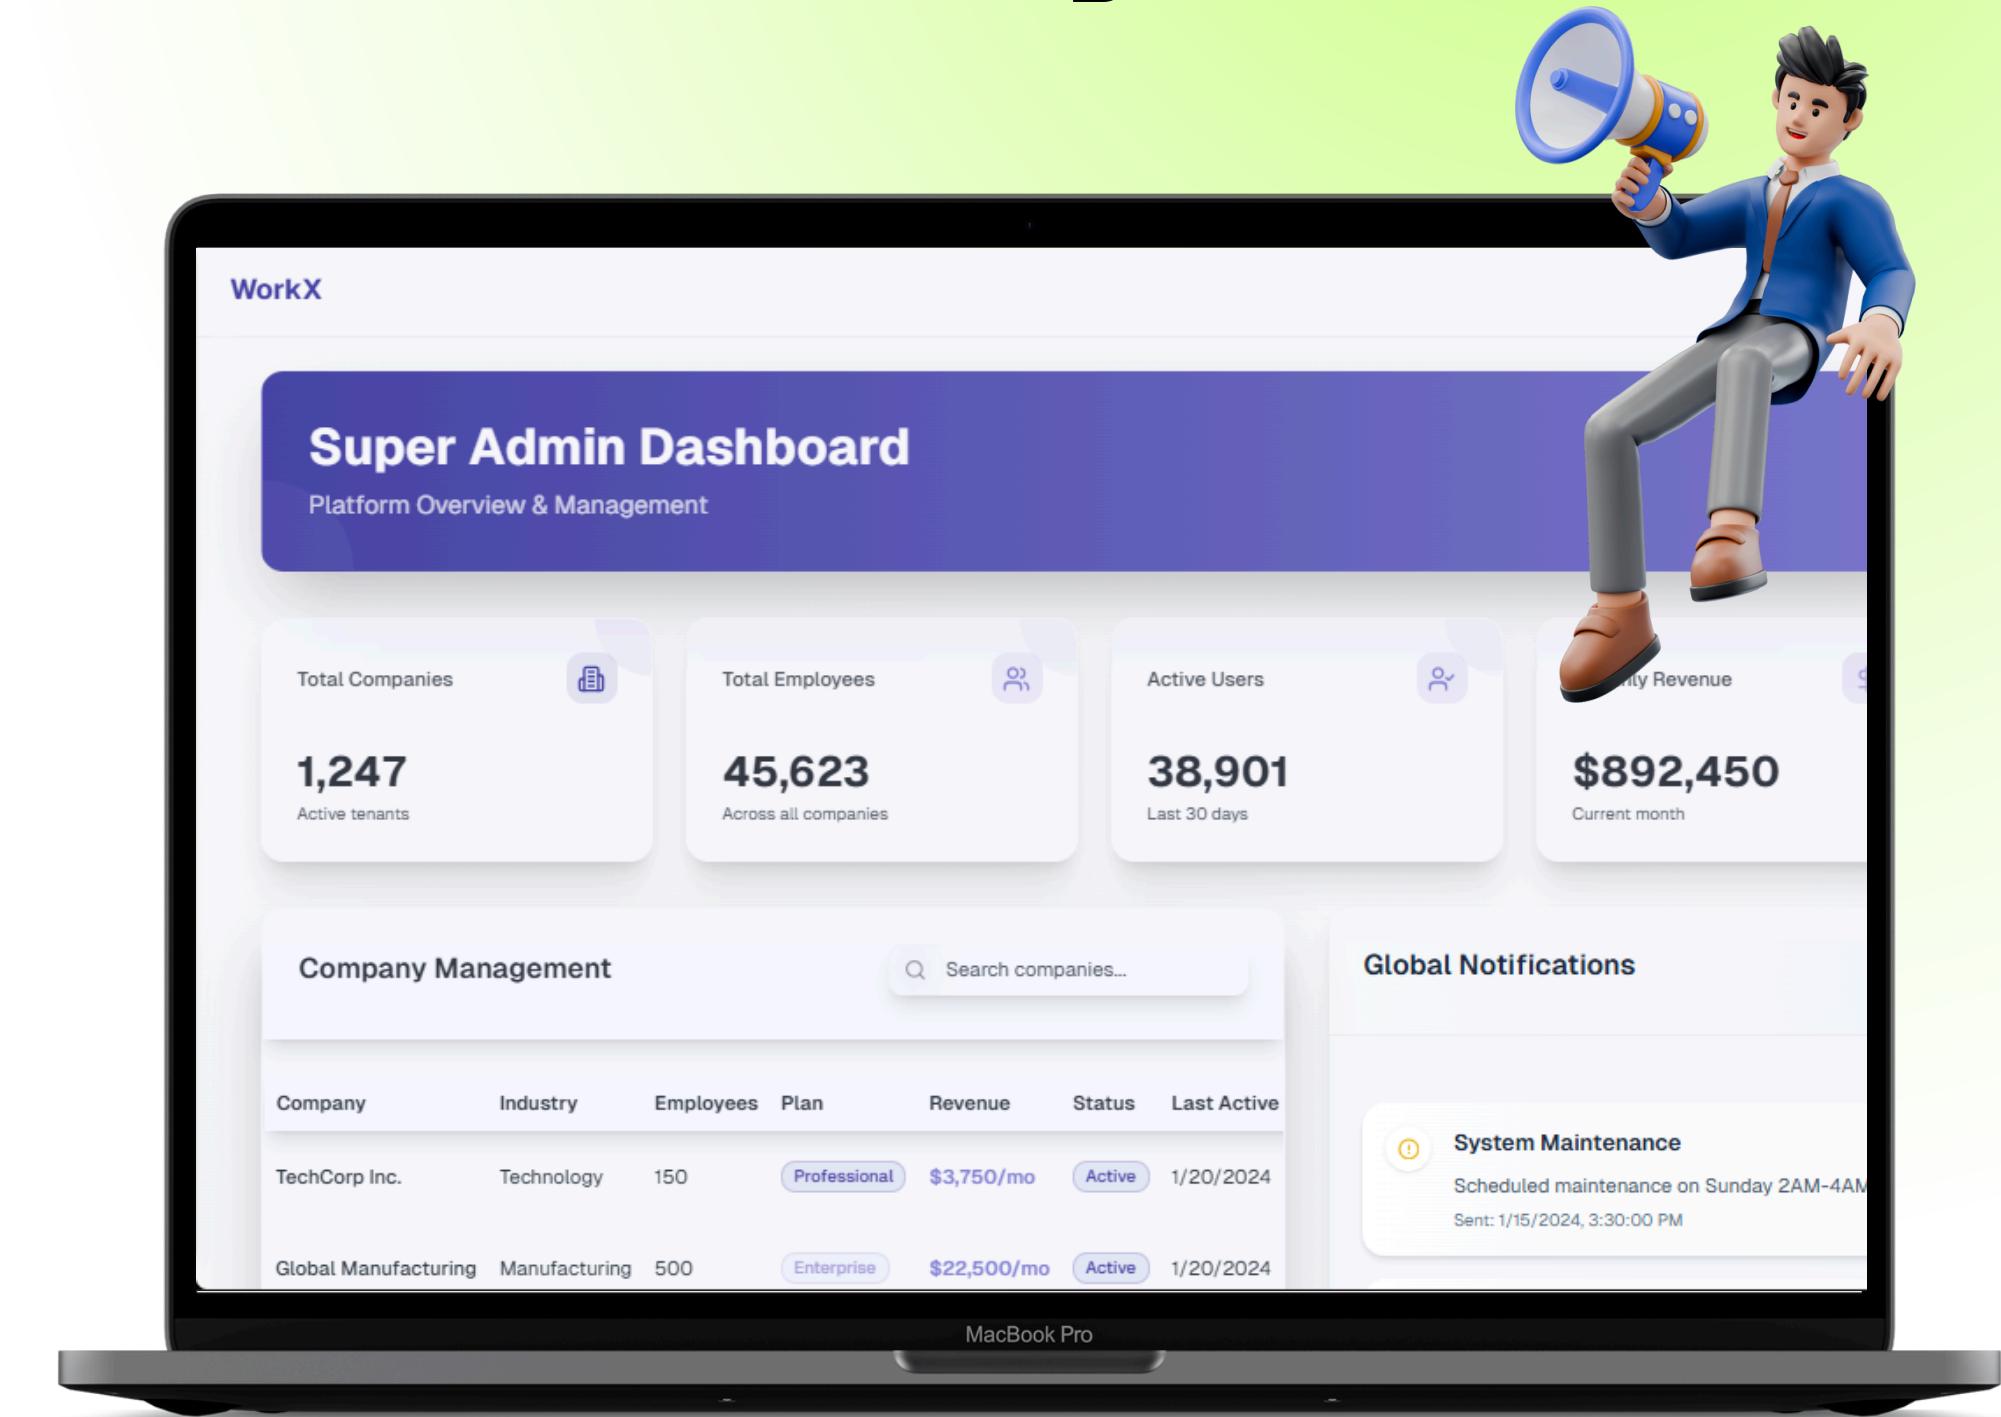

It features auto stock updates, low-stock alerts, GST/non-GST billing, and a sales pipeline to track deals. Orders requiring custom wraps are seamlessly routed to the design team and back, ensuring smooth coordination across sales and design.

# WorkX [ All in One HRM Payroll SAAS ]

WorkX HRM is a next-gen human resource management system built to automate payroll, attendance, and shift tracking. Through its mobile app, employees can log in and mark attendance, while GPS-based location verification ensures accurate in-office check-ins.

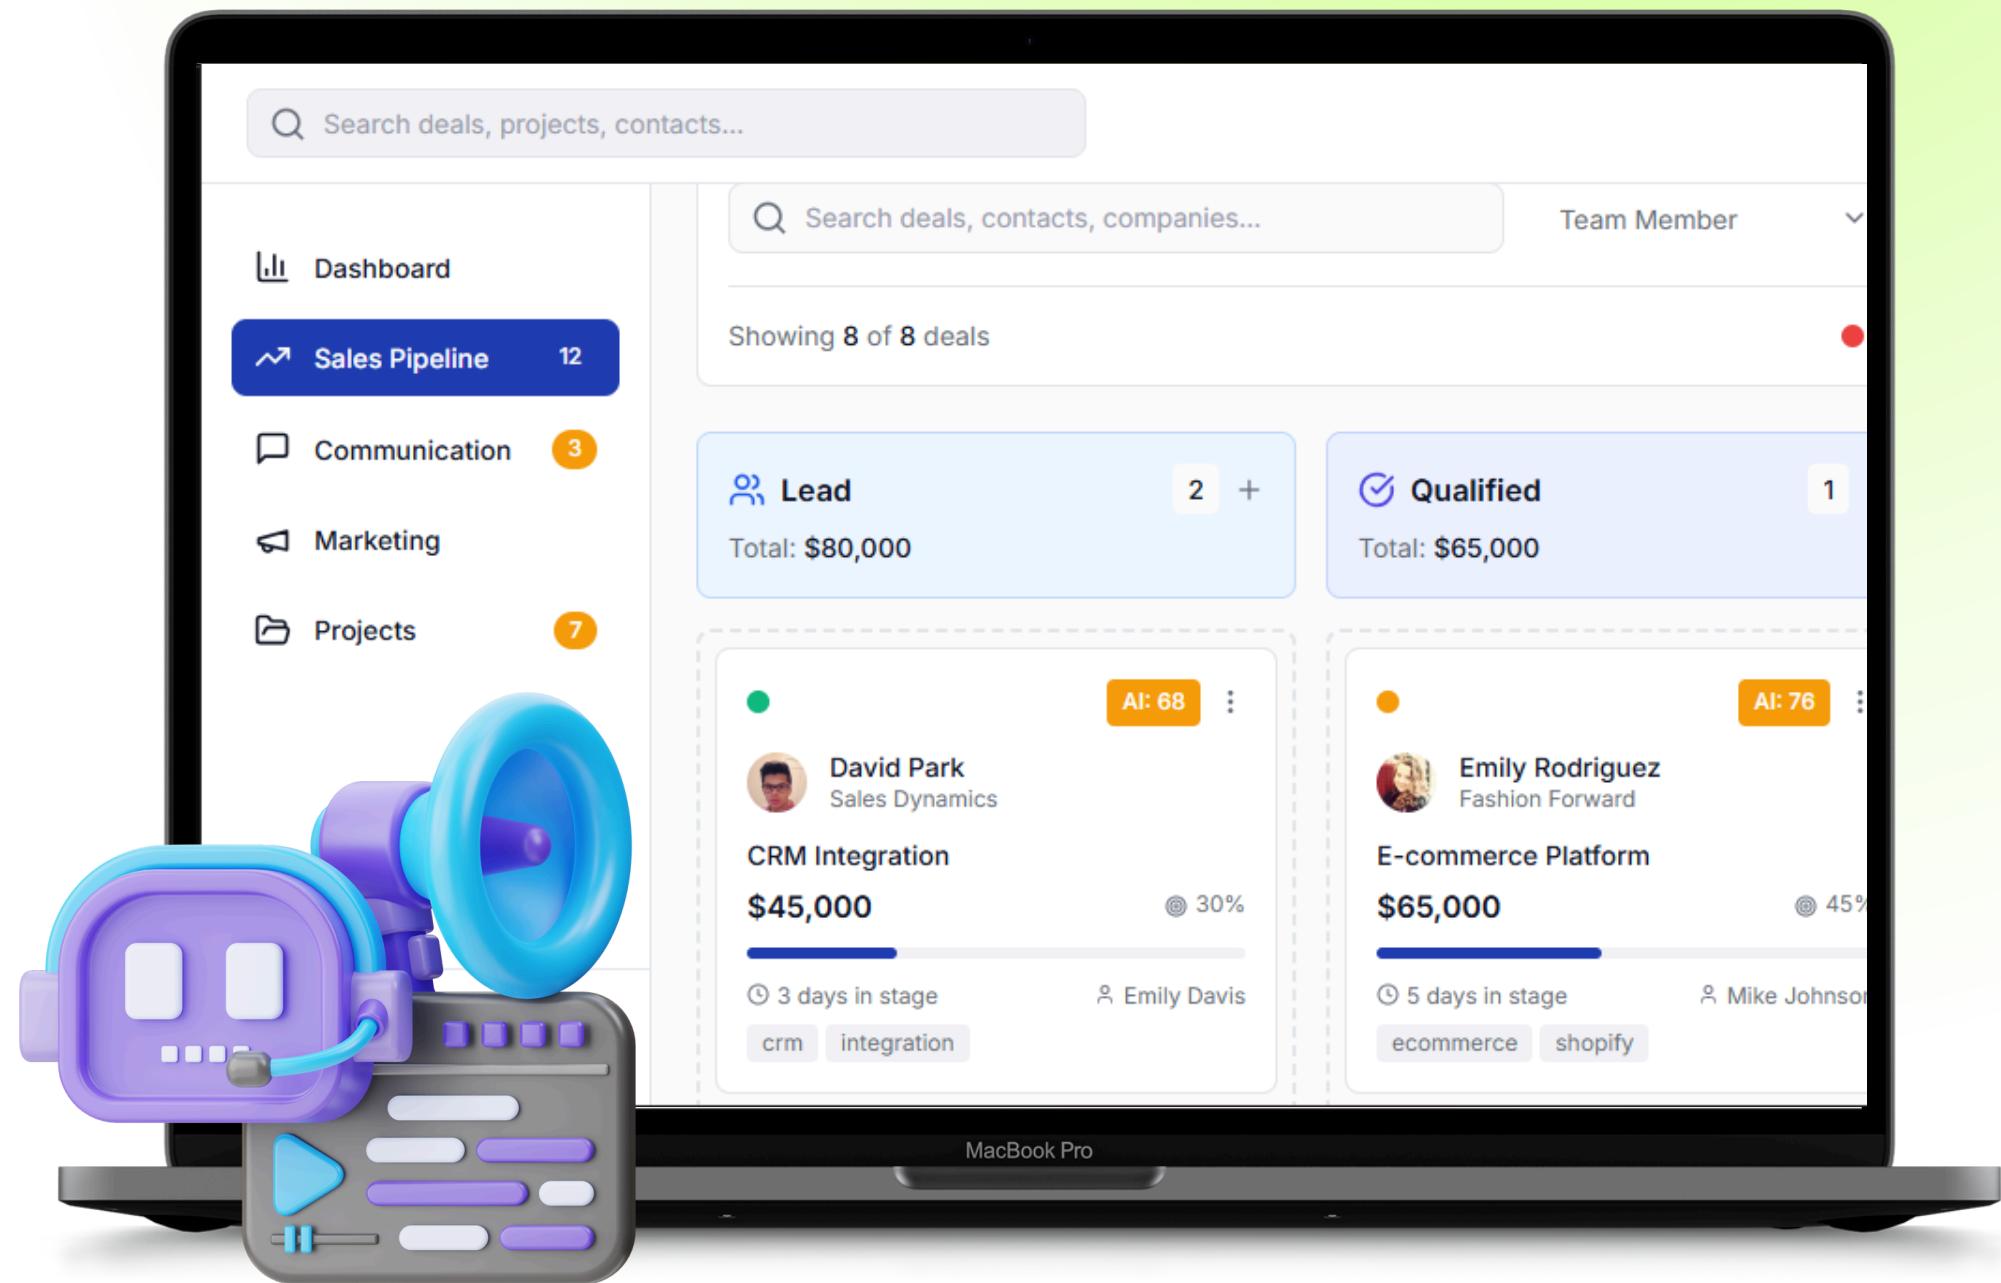

Along with attendance, WorkX HRM streamlines payroll processing, leave management, and workforce scheduling, reducing manual work.

# GrooveSales CRM

GrooveSales CRM is a modern and intuitive sales pipeline management tool designed to simplify lead handling and boost conversions. Its drag-and-drop interface lets sales teams easily visualize and manage every stage of the pipeline.

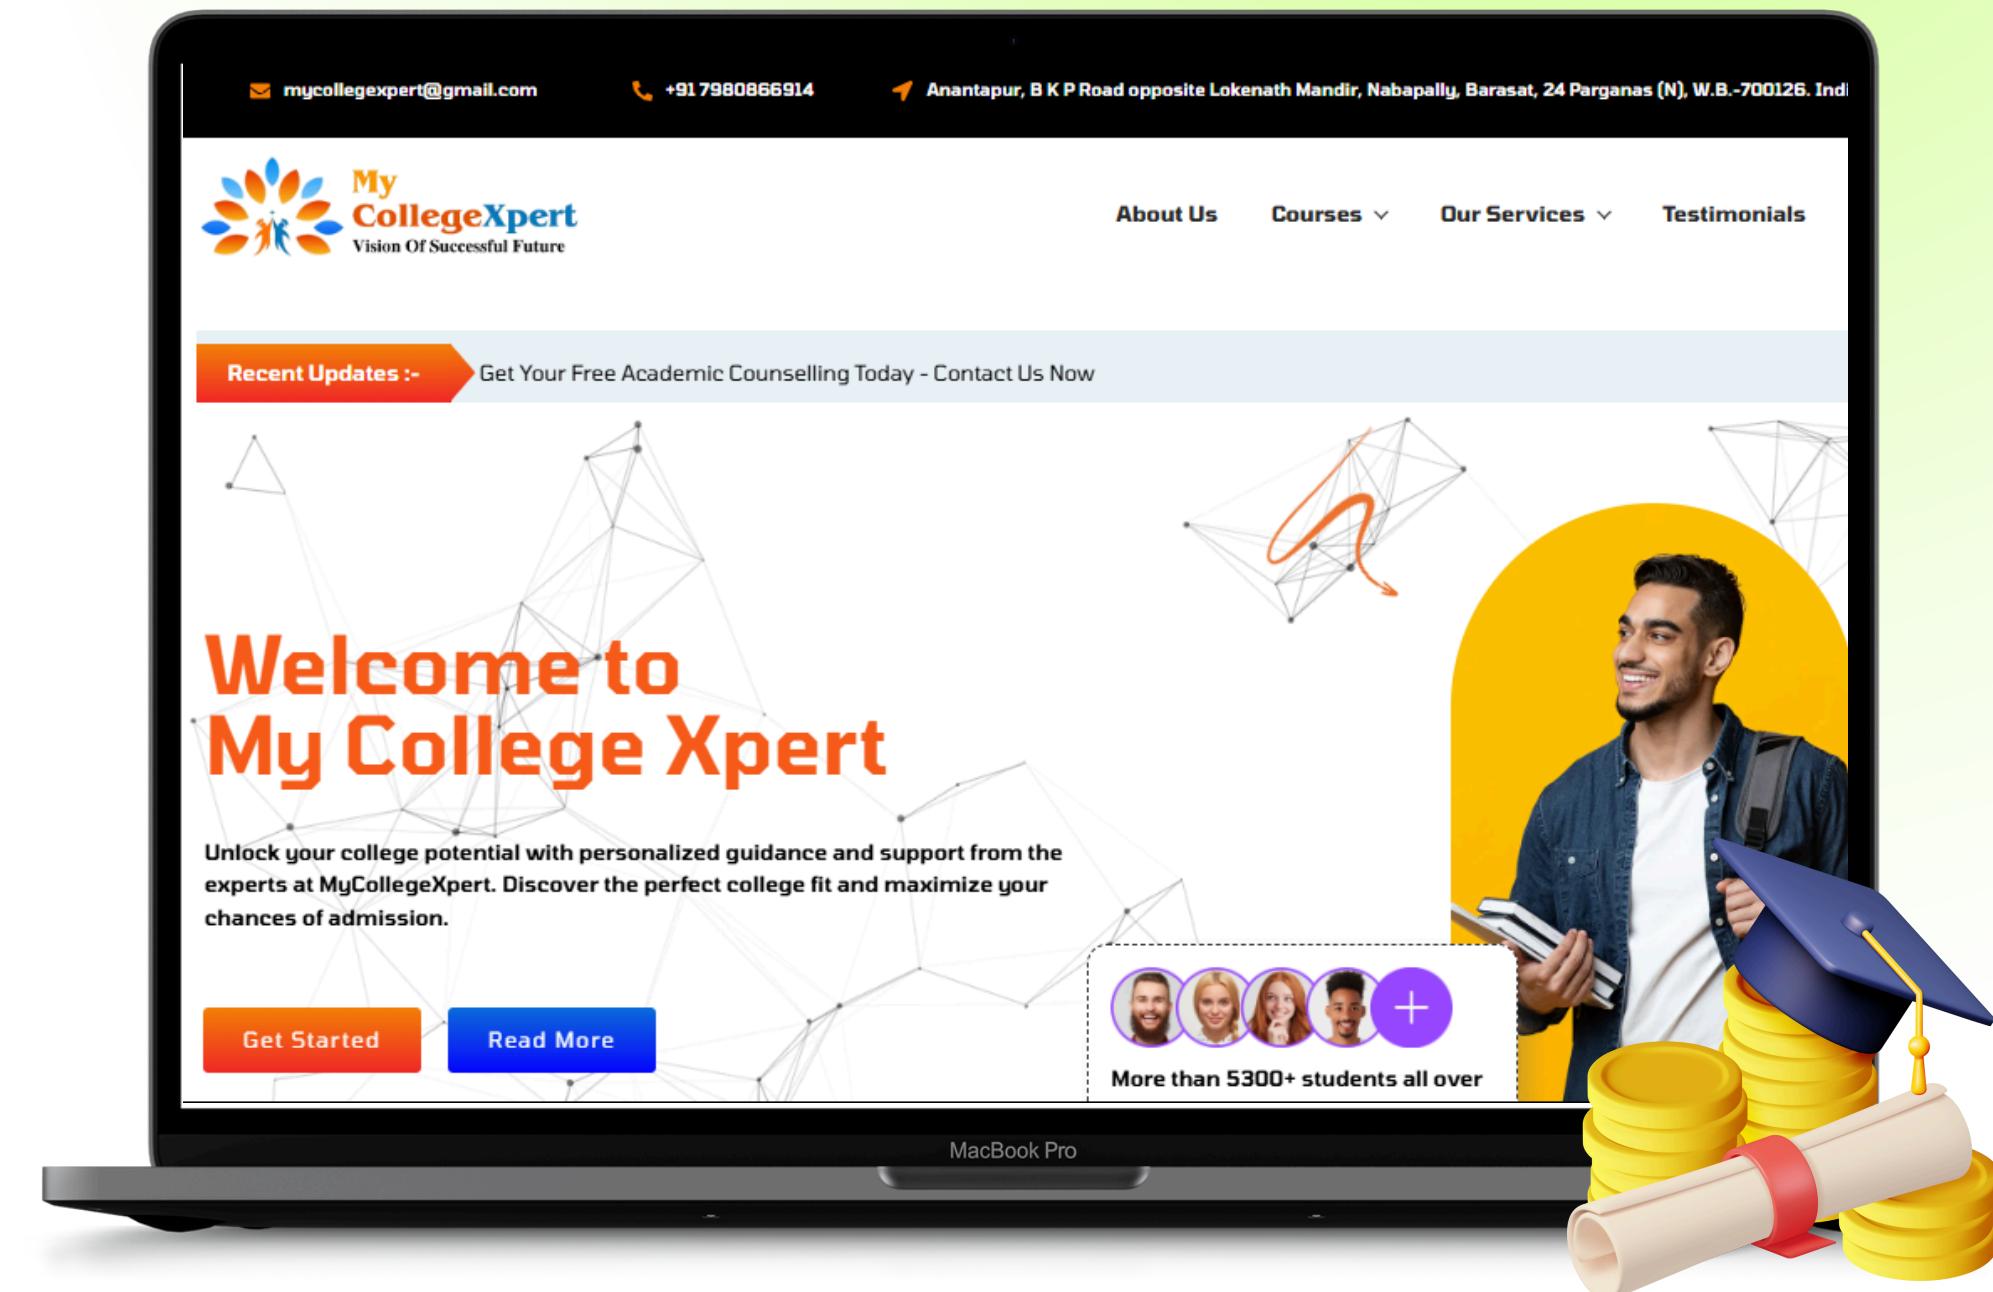

GrooveSales is an automatic lead fetching—capturing leads directly from WhatsApp campaigns, Meta ads, and Google Ads—so teams can focus on closing deals instead of manual data entry.

# My CollegeXpert

MyCollegeExpert is a premier educational consultancy based in India, dedicated to guiding students through their academic journeys.

Their services encompass a broad spectrum, including assistance with admissions, scholarship guidance, and visa processes, ensuring a seamless transition into higher education.

# Jiban Drops

Jiban Drops is a premium bottled water brand based in West Bengal, India, committed to delivering the purest drinking water experience. By combining mineral-rich and RO (Reverse Osmosis) water, they ensure a refreshing and health-conscious hydration solution.

Our collaboration with Jiban Drops focused on enhancing their digital presence to effectively showcase their commitment to quality and purity.

# Go Karts Ultimate

Go Karts Ultimate – Real Racing with Multiplayer is an exhilarating mobile kart racing game developed by GameAnax Inc.

The game boasts 12 realistic tracks, each meticulously crafted to provide an intense racing environment. Players can choose from 5 unique go-karts, each with distinct characteristics, and customize their driving experience with different control options.

# CryptX

With this powerful and easy-to-use app, you can effortlessly monitor live cryptocurrency prices, charts, and market capitalizations.

CryptX comes with a built-in wallet tracking feature that lets you keep an eye on your assets—whether it's Bitcoin, Ethereum, Binance Coin, or any other crypto—directly from wallets like MetaMask, Trust Wallet, and more.

GrindX

# Finance Hiva

Finance Hiva is a specialized platform designed to connect buy-side traders across the globe. The app serves as a secure industry portal, facilitating seamless conversations and connections 24/7.

The platform offers a range of features tailored to the needs of trading professionals:

Personalized Connections: Users can input their preferences to receive content and connections relevant to their priorities, which can be adjusted as their roles evolve.

# Maths Ninja

Maths Ninja is an engaging educational game co developed by GameAnax Inc., designed to make learning mathematics fun and interactive for children.

Available on iOS devices, the game combines the excitement of slicing mechanics with quick math challenges, encouraging players to sharpen their arithmetic skills in a dynamic environment.

Thank  
You
